

JACK OF ALL TRADES

Sharing your expertise, knowledge and industry leadership with your clients makes you stand apart from your competition.

The NMA's mission is to Advocate, Educate and Network and we believe our Associate Members can help us achieve our mission to educate by sharing their expertise and willingness to engage the manufacturing industry.

We invite you to join us for our Jack of all Trades Webinar Series that is timely, informative and gives the ability to showcase your company to potential manufacturing clients.

Here is how it works:

1. Associate members are invited to present a one hour webinar to manufacturing members (complimentary).
2. Each associate member is to provide 3 choices in webinar topics for members to choose from.
3. Approximately one month prior to your webinar, we will survey the members asking for their top choice of webinar topic out of the 3 provided by you. We feel this gives us enough time to plan and more importantly the topics chosen are timely for manufacturers.
4. The webinars will run May-June and Nov-Dec 2021
5. Due to our time and date limits, applications must be filled out and are accepted on a first come, first serve basis
6. NMA staff will work with the Associate to provide an outstanding webinar experience
7. Share your expertise!

For more information, please contact Managing Director, Darla Price at darla.price@thenma.ca, 289-677-4988

Jack of All Trades, WEBINAR APPLICATION FORM

Company Name: _____

Contact Person Name: _____

Contact Email: _____ Contact Phone: _____

Business Category: _____
(example: finance, training, marketing)

Webinar Topics You Suggest:

1. _____

2. _____

3. _____

I agree to the following statements:

- I understand applications are accepted on a first come, first serve basis.
- I understand the education series is not to directly promote my company but to share my expertise and knowledge
- I agree to participate in media releases/events that may generally describe your participation without the release of specific proprietary information.
- I understand that the NMA will insure our chosen webinar topic will not be in competition with other presenters.
