

Kawartha, Peterborough & Northumberland manufacturers to host careers event for general public

Northumberland, ON (March 1, 2022) -

Kawartha, Peterborough and Northumberland manufactures are excited to welcome local job seekers and those new to the industry to a ½ day virtual event to learn more about our innovative sector and the many career opportunities available.

“On Wednesday, March 30 we hope to engage the general community, those looking at second careers, women and local job seekers to give us the chance to communicate our stories, remove the myths of working in our industry and share the jobs and careers we are looking for them to fulfill”, explains Fred Kossiem, NMA President.

This year’s event guests will enjoy the ability to:

- * Meet local manufacturers
- * Access career assessments – is manufacturing right for you?
- * Watch pre-recorded plant tour videos – see inside our industry
- * Watch a live streamed demonstration from Cobourg’s own Venture13, showcasing Loyalist College students/grads industrial projects – prototypes, inventions

Post event, guests are encouraged to visit the new NMA Careers In Manufacturing website (www.careersmfg.ca – currently under construction), where visitors can view local job postings and post their resume.

Guests can register for this free event at www.thenma.ca
