Team Eagle Ltd.

TEAM EAGLE LTD.

Team Eagle Ltd., is one of Canada's leading suppliers of aircraft rescue fire fighting, snow and ice control, turf and pavement maintenance equipment. We provide equipment sales, training, warranty support and service for all of our equipment product lines from coast-to-coast. We offer 24/7 service-support, carry a complete inventory of spare parts as recommended by each of our manufacturers and guarantee our parts delivery by quickest available means.

Team Eagle Ltd. supports customers from our 27,000 square foot headquarters in Campbellford Ontario. Our headquarters is also home to our other Team Eagle divisions, Stability Dynamics, Eagle Integrated Solutions and 3rd Millennium Solutions.

Upcoming Membership Event

Maintenance & Reliability Workshop -

Durham

Industry leaders SDT Ultrasound, Benchmark PDM and Betavib collaborate to present an exciting one day workshop on reliability and asset condition management.

A reliable asset is one that delivers its full value whenever required. Reliable people show up on-time and do what they say they will do. And reliable machines output their engineered value allowing manufacturers to ship high-quality products profitably.

What is lost when reliability falters? How about confidence, integrity, and time? World class manufacturers commit tremendous resources to manage the condition of their assets. Their goal is reliability. Three condition monitoring technologies, Ultrasound, Precision Alignment, and Vibration Analysis, work cohesively to deliver reliability and fulfill this investment goal.
