

November 2016 Funding & Event Update

NEW Training & Funding Support

SIGN UP TODAY - 2/3rd Funding Available!

A graphic for the Continuous Improvement Leadership Training & Funding Program. It features a background of interlocking gears with the words 'improvement' and 'continuous' written on them. Overlaid on the graphic are the logos for Fleming College Contract Training and NMA. A yellow starburst with the word 'NEW' in red is positioned to the right of the NMA logo. Below the logos, the text 'Continuous Improvement Leadership Training & Funding Program' is displayed.

Fleming College | Contract Training

NMA
NORTHUMBERLAND MANUFACTURERS ASSOCIATION

NEW

Continuous Improvement Leadership
Training & Funding Program

Ideal for entry & intermediate level employees.

The training was developed in partnership with Fleming College in consultation with local manufacturers to fill a skills gap identified by NMA member manufacturers. The Program includes classroom training in Cobourg, coaching and mentoring component and an applied project for each trainee that will have an immediate value to the employer.

Designed to be both time and cost-effective.

The program runs ½ days every 2 weeks for 17 sessions beginning **November 17th**.
Training cost including books, testing, training and personalized coaching.

Register by November 10th - Limited to 25 participants.

For details and to secure your seat(s) contact:

judy.selvig@thenma.ca 905-372-8315 ext. 241

Keynote Presentations

"Innovation & Collaboration"

Roger L. Firestien, Ph.D.

Author and Senior Faculty Member at the International Center of Studies in Creativity, State University of New York - Buffalo State.

Prior to leading a Panel discussion on advancing innovation through collaboration, Dr. Firestien will present:

"Celebrating Innovation – How to be Deliberately Creative"

Local industry, Loyalist College and Fleming College will participate on the Panel to share experiences and opportunities for collaborative manufacturing projects.

"Innovation – Advantage Play"

David Ben

Creativity Expert and Master Magician

What do cardsharps, magicians and manufacturers have in common? People expect them to perform the impossible. The illusionist is expected to defy the laws of nature and perform a magical effect. Manufacturers too must strike the word "impossible" from their vocabularies to achieve success. Now, the impossible is really nothing more than a problem waiting to be solved. As a group, all these individuals are professional problem solvers. They understand that technique – properly applied – allows them to create solutions on demand.

Health & Safety Training

November 24th

Construction Projects in Industrial Facilities (1/2 day)

Morning session start time **8:30 am** in Conference Room, 600 William Street, Cobourg
Equipment and machinery are installed and moved regularly at industrial facilities. What you may not know is that this type of activity meets the definition within the Occupational Health and Safety Act as "construction". This 1/2 day workshop will help you identify the many tasks that are

regularly performed at an industrial facility and that are actually construction in nature, and what this means to your workplace. You will understand what a "constructor" is and what their responsibilities are. Typical project scenarios will be discussed and you will leave with a better understanding of how to apply this knowledge to your own workplace.
For registration link visit thenma.ca/workshops.

Managing Safety of On-Site Contractors (1/2 day)

Afternoon session start time 12:30 pm in Conference Room, 600 William St., Cobourg.
Utilizing outside contractors is a reality for every business. It is important to ensure that contractors do not create unnecessary risks to themselves, to employees or to the public while performing their work. Through the use of case studies and the contractor safety workbook, you'll walk away with sample documentation, checklists and tools required for your company to effectively manage on-site contractors.

For more visit thenma.ca/workshops.

January 26th - 2017

Fleming - Peak Leadership Program

Program starts on January 26th and will be delivered in Cobourg. For details including NMA member testimonials on the effectiveness of the program, contact:
